

GATEWAY

Protected at a Glance.™

FEATURES AND BENEFITS

Connected. Ready.

The Gateway enables ANY Samaritan AED to be connected to a local WiFi network. Simply attach the Gateway, or purchase one with an AED, and your device can be monitored online ensuring your AED is rescue ready at all times!

Tough & Ready

Comes with a shock-proof carry case which encases both the AED & WiFi module.

Extra Protection

IP56 Certified protection from water and dust - the same level of protection as the Samaritan AEDs.

Retrofit

Able to be added to any Samaritan AED to upgrade it to a connected system. Can also be purchased with any new Samaritan AED in a bundle.

Simple Attachment

Simply clip the module onto the top of the AED.
