## INTRODUCTION

Gmac Safety deliver Allens Training Pty Ltd nationally recognised Work Safely at Heights course which reflects the skills and knowledge required in roles undertaken by individuals who perform operational workplace tasks involving the requirement to work safely at heights in the resources, factory, construction, maintenance and infrastructure industries.

It is essential for someone who works in a position where there is any risk of a fall.

## ENTRY REQUIREMENTS

Participants must have the psychological and physical capacity to be able to meet the demands of the practical demonstration skills including gaining access, working, and egress from a place of height whilst wearing the appropriate PPE.

Sufficient English language, literacy, numeracy and visual interpretation skills to successfully complete the course.

## COURSE CONTENT

With the aim of preventing falls, working at heights training will provide you with the skills, knowledge and most importantly the confidence required to work safely at heights in the work environment safely including:

- ✓ applying policies and procedures,
- ✓ using document information to interpret and apply technical and safety information
- ✓ assessing hazards and risks for working at heights
- ✓ how to control hazards and risks
- ✓ using personal protective equipment
- ✓ identifying safety systems and
- ✓ fall protection equipment (rigging of and anchoring systems)
- ✓ checking the fitting, making adjustments of fall protection equipment
- ✓ anchoring of fall protection equipment

## ASSESSMENT

Individuals undertaking this course will be expected to complete both written and practical assessment tasks.

**Practical Assessment** – The student must complete all required performance tasks for at least two (2) practical scenarios:

- Identify work requirements
- Identify work procedures and instructions
- Access and install equipment
- Perform work at heights
- Clean up work area

**Theory assessment** – A written assessment consisting of multiple-choice and short answer questions. The student must successfully complete all assessment questions.
